INTRODUCTION

GREENTOP
Contracting Co. Ltd.,

Green Top Contracting Co. Ltd (GTC) is a Industrial Contracting Company came into existence in the year 1977 in Al Khobar, Kingdom of Saudi Arabia.

The company since then has a much longer history, constantly outgrown and continue to build an increasingly strong identity for its Quality Products in GCC Countries in which it operates and reach significant milestone towards Total Customer Satisfaction.

Saudi Management plays a vital role in every act of company's function to support engineering team that has well-experience and systematic approach to provide desired output in a more efficient way.

The company employs highly qualified and experienced Managers and Engineers as well as skilled Workforce that aims to offer the best civil-electro-mechanical-IT works and maintenance services. GTC has the divisions in Kingdom of Saudi & GCC Countries to cater the rising demand.

To a greater extent, the goals that GTC ambitiously sets for itself, thus creating a virtuous cycle of increasingly challenging demands by customers to which GTC intensify its focus on meeting those demands.

GTC, the ISO 9001 : 2015, ISO 14001 : 2015 and ISO 45001 : 2018 certified company, is currently active in Design, Supply, Erection, Corrosion Protection, Operation & Maintenance, Modification Project, Support Services in :

Civil, Electrical, Instrumentation, Mechanical, Piping & Pipeline Projects

GREENTOP
Contracting Co. Ltd.,

SAUD NASSER AL-YEMNI
Chairman

CHAIRMAN MESSAGE

GREEN TOP CONTRACTING CO. LTD., is a Industrial contracting company came into existence in the year 1977 in Al Khobar, Kingdom of Saudi Arabia with vast experience on the Construction & Management of Residential, Commercial and Industrial Projects with special expertise in the Construction of Power Substations and associated facilities. GTC employs highly qualified and experienced Managers & Engineers as well as skilled Work forces that aim to offer the best civil-electro-mechanical-IT works and maintenance services, combining this with an unwavering focus on the customer's needs.

GTC activities for the last forty six years comprehend all the processes related to building Section and systems, that is, civil, electro, mechanical, Instrumentation, communication, information technology and operation and maintenance services. works, from 'on site development' of the master designs to their constructions. GTC activities also include, after completion, the maintenance and facilitation works of facilities & industrial processes through leasing contracts.

NESAMANI RAJENDRAN
CEO

CEO MESSAGE

Nesamani Rajendran is an MCA graduate of the Bharathidasan University, India, and M.Tech graduate from Devi Ahilya Vishwavidyalaya University (DAV), India. He also has a Master's in Business Administration from Bharathiar University, India.

Since 2016 he was part of the senior management team and later took over as the Vice President for Green Top Contracting Co. Ltd. in 2016. His ideas and strategies have taken the company to a new level and achieved what was once impossible. Ever since February 2023, he has been the CEO of Green Top Group.

As a CEO, I am proud of the work we do and how we go about doing it. Safety & Satisfaction is the core of everything we do and remains our number one priority. Our Safety & Satisfaction culture is deeply rooted in our overall business strategy and committed to providing necessary resources, support and trainings toward ensuring each and every employee returns home safely and satisfying the clients at the end of the day with the extensive experience in the construction & Services fields bring a wealth of knowledge to GTC focused on strategic business management, metrics, measures, and initiatives to drive operational efficiencies.

Our success would simply not be possible without clients who expect, demand, and appreciate high quality results and call upon GTC when they require the quality products in an efficient way. We also make this same commitment to potential clients who may be considering engaging our services for the first time.

Further, things have changed quite a bit over the past 4 decades. What started as a contracting company has now grown into an award-winning statewide organization. That said, some things haven't been changed. Nevertheless, the values of GTC instilled back in 1977, remain with the Company today – to provide a product we can be proud of, giving the customer a little more than they expected, all while keeping a focus on employee satisfaction. Realizing a revolution in structures, and consequently a revolution in construction solution, we gradually started implementing Trading and construction divisions in Civil, Electrical, Mechanical, Instrumentation, Communication, Information Technology and operation & Maintenance services which has led to extraordinary results with wonderful relationship with our clients.

I appreciate you taking the time to visit our website and encourage you to do so frequently to learn more about our company and our community.

OUR VISION

We provide our clients with high quality work and To be the most preferred Vendors with in our service range. To provide value added services to the customer. We value commitment, integrity, employee morale, loyalty and we embrace the spirit of novelty that acts to realize opportunities to transform our vision into reality.

OUR MISSION

- To create value for our partners through excellence and innovation**
- To be responsible partners with respect to safety and environmental impact of all our operations and services**
- To run the company on a sustainable financial basis of profitable growth**
- To recruit, retain and reward high-performance workforce**

OUR STRATEGY

(GTC) has formulated a strategy for its business organization as whole and ensure that GTC is continuously accomplishing the goals and to develop a mutually rewarding professional service. Along with the strategic planning, GTC's mission and vision are also the management tools for the goals with remarkable achievement on every project in line with Core values as listed but not limited to: Cost Management, Technical Knowledge, and International Expertise.

OUR GOALS

- **In-time accomplishment & On-time delivery of projects**
- **Professional Approach**
- **100% Client Satisfaction**

WHY Green Top ?

Green Top, we are committed to providing our clients with complete packages of Construction Services.

Aside the guaranteed quality and certified reliability of the products we represent, our team of educated professionals(all qualified engineers) will work close with you to provide the best technical advice so you can get the most out of your equipment.

We are active in various crucial industries and in each and every of these areas we:

- Boast decade-long expertise and knowhow.**
- Guarantee optimized solutions, tailor-made to our clients' needs.**
- Offer extensive technical advice, fast response and excellent after-sales support.**
- Keep up with the latest developments, innovations and additions in the industry and technology, to be able to offer products and services of the highest quality standard.**

BUSINESS INFORMATION

GREENTOP
Contracting Co. Ltd.,

At Green Top Contracting Co. Ltd., its team objective is to offer the Saudi Arabian / GCC Market the best Civil-Electro-Mechanical-Piping & Pipeline-IT (Infrastructure) Projects & Maintenance Services and to cater the demand prevailing in the market, Green Top has the following division;

S.NO	ORGANIZATION NAME	COMMERCIAL REGISTRATION NUMBER
1	GREEN TOP CONTRACTING CO. LTD.,	2051003261
2	GREEN TOP INFORMATION TECHNOLOGY LTD	2051062276

OPERATION & MAINTENANCE

GTC is an engineering, construction, operation, and maintenance company, involved in major Substation construction project since 1977. The company serves its customers at every project phase, from strategy formulation through design, project management, and implementation right through to support and upgrades.

Green Top Contracting Co. has worked on detailed construction of various types of major and minor structures, both concrete and steel for commercial, industrial and infrastructure projects, buildings, road networks, industrial support facilities, security perimeter fences, road crossings, retaining wall design, stability analysis, equipment/machine foundations, spread footings, combined footing, mat foundations, beams, columns/piles and all reinforced concrete structures. GTC Performed design analysis for building facilities, in-plant structures, pipe supports and pipe racks, equipment support structures, anchorage, miscellaneous steel structures such as stairways and ladders

OUR SPECIALIZED SERVICES

- **Substation Building**
- **Industrial Substation Building**
- **Converting Substation Building**
- **Outdoor Substation Building**
- **Pole Mounted Substation Building**
- **Indoor Substation**
- **Switching Substation**
- **Transformer Substation Building**
- **Control Building**
- **Security Building**
- **Pump House**

OUR SPECIALIZED SERVICES

- **Tunnel Basement**
- **Transformer Foundation**
- **Fire Wall**
- **Transformer Track Road**
- **Reactor Foundation**
- **Cable Trenches**
- **GIS Building**
- **Switch Gear Building**
- **Reactor Foundation Firewall**
- **Transformer Firewall**
- **Gantries Foundation**
- **Cable Conveying**

Our Services encompass the Planning. Design, application and maintenance aspects of medium voltage substations for utility networks and industrial plants.

GTC is an Engineering, Procurement and Construction (EPC) contractor for Over Head Power Lines (OHPL) and executed various ranges for Industrial Sectors which include the OHPL carried out for Saudi Aramco Onshore Maintain Potential Program.

GTC Electrical Engineers have accumulated experience in the field of transmission, distribution and utilization of Electrical Energy. They have experience in substations up to 400KV and have specialized skill in system design & relay selection and co-ordination. In addition, they are experienced in gas & process industries,

GTC we have been entrusted with the management of substantial power projects, including supervision of construction work and plant erection, quality assurance and factory inspections, site testing and final commissioning of plant and systems. The scope of these projects has included both new substations and network reinforcements. We have been responsible for auditing designs and co-ordination of all primary plant (switchgear, transformers, capacitor banks, etc., with the associated protection relaying and telecommunications systems.

OUR SPECIALIZED SERVICES

- **Substation and Transformer Work**
- **OHPL and Services**
- **Industrial Power Solutions**
- **UPS/Generators Frequency Drive**
- **Under Ground Power Distribution**
- **Lighting/Lighting Controls**
- **Building Control and Fire System**
- **Road way & Right-of-Way Restoration**
- **High Mast and Street Light Pole**
- **Motor and Related Control Design**

OUR SPECIALIZED SERVICES

- **Medium Voltage Substation Installation**
- **OHPL and Services**
- **Infrared Acceptance Testing**
- **Transformers**
- **Gas & Oil filled switches**
- **Voltage Circuit Breakers and Regulators**
- **Grounding Systems**
- **Grounding-Fault Protection Systems**
- **Motors and Generators**
- **Reclosers & Line Sectionalizers**
- **Duct Bank, Conduit, Cable Termination and splicing installations**

OUR SPECIALIZED SERVICES

- **Overhead Power Survey and Design**
- **Construction Assembly design**
- **Documentation of Construction specifications**
- **Technical Appraisals and Design Risk Analysis**
- **Grid Connection Management**
- **Site Safety Management**
- **Right of way and Identification**
- **Inspection, Testing, commissioning and Asbuilt preparation**
- **Overhead Line construction / Installation /Assembly on site is professionally carried out by our installers, taking local conditions into account.**

OUR SPECIALIZED SERVICES

- **Power Plants. Turnkey Electrical Power Construction, Industrial Capital Expansion Projects and Control**
- **Electrical Conduits: Perforated sheet metal and plastic trays.**
- **HV conductors & Power transformers installations**
- **LV Power Lines: Electric power cables and control cables, complete diagram. Prefabricated channels “canals” type, in standard and waterproof, both and depth buried.**
- **Switchgears: Switchgear Installations, Metering Switching, General protection boards, power panel boards, energy measurement systems panel boards, control panel boards and centralized automatic management control panel boards**

OUR SPECIALIZED SERVICES

- **Power Generators: Energy emergency supply equipment and or Continuous electrical supply. Generator System Installations**
- **Continuous Power supply: Alternative un interrupted dynamic supply equipment (flywheel).**
- **All Commercial & Industrial Grade UPSs**
- **UPS: Uninterrupted power supply battery equipment, anti harmonic filters, exterior by-pass in simple systems and / or parallel, redundant and / or modular with a block master.**
- **Equipment for Reactive power Compensation & Power Factor: EPC for automatic auto regulated capacitor batteries.**
- **Commercial and/or Diesel Generators**
- **Power Distribution Units**
- **Mechanisms: local control switches for lighting, sockets normal and industrial, remote controls, power control, data ports, etc.**

OUR SPECIALIZED SERVICES

- **Trenching and Pie Placement Work**
- **Duct Banks**
- **Manhole / Hand Hole / Precast Structures**
- **Cable Pulling and Blowing**
- **Construction and Cable Placement**
- **Roadway and Right-of-way restoration**
- **HV conductors, Switchgear & Power transformers installations in underground**
- **Automatic Transfer Switches, Rectifiers & Variable Frequency Drives & Related Equipment**
- **Light Regulation: Automatic lighting control, energy saving, and I or creation of Scenarios for visual comfort and decor including the control electronics, hardware and software, cabling and control sensors Lighting / Lighting Controls and photocells.**

OUR SPECIALIZED SERVICES

- **Interior Lighting: Lighting fixtures including LED Lighting Layout & Installations**
- **Exterior Lighting: Lighting fixtures for road lighting, garden lighting, facade lighting, etc.**
- **High Mast & Street Light Pole (Octagonal, Swaged, Tubular. etc) Works**
- **Industrial, warehouse lighting design and Installation, High / Low HID Fixtures, Airfield /Runway lighting, Parking lot , Street , Site Lighting & Site Electrical Work**
- **Spectacle Lighting: lighting projectors for theaters and performance spaces, including lighting equipment and control wiring Spectacle for lighting projectors for theaters and performance spaces, including lighting equipment and control wiring.**

OUR SPECIALIZED SERVICES

- **Security and Control System Integration**
- **Motor and Related Control Design**
- **Network Design**
- **Installation of fire alarm control panels, life safety systems, voice evacuation systems, and mass notification systems.**
- **Underground Cable Repair, Splicing and Termination**
- **Street Lighting Service, Poles / Octagonal Poles & Panel Erection Services**
- **Calibrate and install instrumentation and related control**
- **Automation applications Emergency Electrical Repair & Restoration**
- **System Protection, Grounding & Grounding Grids : Equipment grounding systems, and general grounding networks, buried bare copper conductors, etc.**
- **Lightning Rods: Franklin type electro-atmospheric catchment, creation of Faraday cages, etc.**

Green Top Contracting Co. is positioned to become a leading partner in the solar industry due to our unique partnerships with leading contractors, and technology partners in Kingdom of Saudi Arabia.

Solar Power Generation is an increasingly important source of sustainable energy and it is affordable too. GTC has wide range of expertise in the Solar energy sector. GTC provides Design, Build, Expansion, and maintenance in efficient way and cost effective solar energy facilities from the ground up. GTC is also performing EPC on Wind Power Generation System and Convertors (best-in-class values).

GTC is distinguished through higher electricity yield in actual operating conditions. All our services and technologies are customer-focused and we cater to the home energy system to power plant development whilst providing comprehensive support before and after sales.

Green Top Contracting Co. also possess highly skilled technical persons both in house and as consultants having unmatched experience in the renewable energy field both locally and internationally, ensuring the perfect solution is always provided to our clients.

Our technology is distinguished through higher electricity yield in actual operating conditions. All our products and services are customer-focused and we cater to the home energy systems to power plant development whilst providing comprehensive support before and after sales.

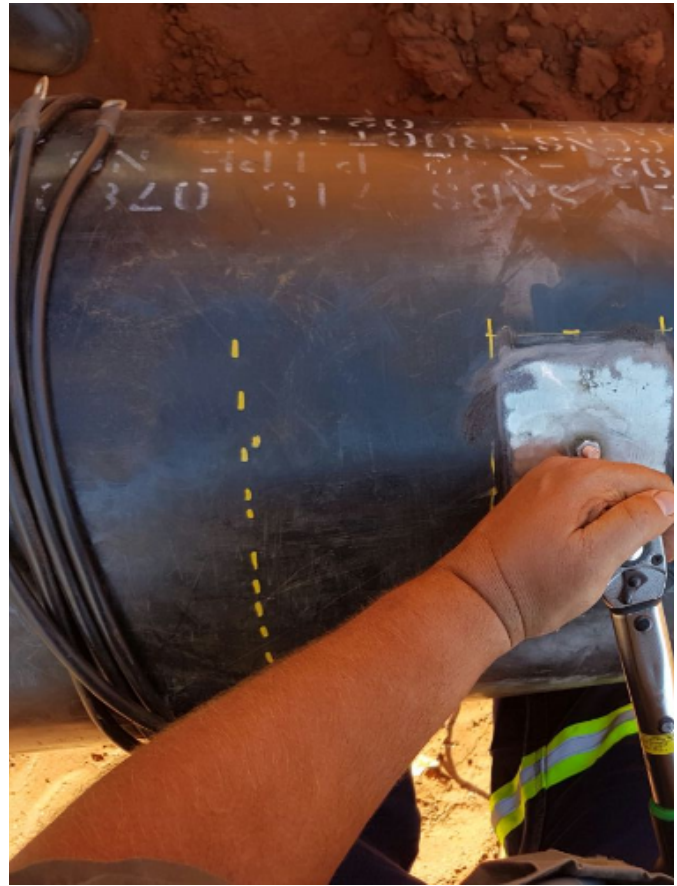

OUR SPECIALIZED SERVICES

- **Grid-Tied (ON Grid) Solar Power**
- **OFF-Grid solar Power Plant Solution**
- **Hybrid Solar Power Plant solution**
- **Solar Water Heater**
- **Installation of Solar Inverter**
- **Solar Inverter and Solar Battery**
- **Testing of Solar Panels**
- **Feasibility Studies and Resource Analysis**
- **Procurement Process**
- **Site Construction Planning**
- **Electrical Design for Low and high voltage**
- **Racking System Design and Installation**

OUR SPECIALIZED SERVICES

- **Foundation Design and Installation**
- **Photovoltaic (PV) Systems assembly and Erection**
- **Underground Cabling Installation and Substation & Interconnection facilities**
- **Wind Power Generation: Wind turbines, Energy storage element and control for injection into utility power grids.**
- **Solar Photovoltaic Power Generation: high efficiency photovoltaic conversion, energy storage elements and control for injection into utility power grids. Constructing State-of-the-art photovoltaic facilities that reduce energy costs**

Green Top Contracting leading provider of cathodic protection systems, engineering services, materials and equipment supply with a deserved reputation for delivering high profile projects within budget, on time on the global stage. With an established track record covering high pressure oil and gas pipelines, storage facilities, concrete and marine structures nobody is better positioned to provide you with a solution to your corrosion needs.

GTC provides design, installation and maintenance services related to Cathodic Protection (CP) Drilling, DS/TA Measurements, Anode, Coke Breeze Installation. GTC has executed various ranges especially to major projects pertaining to Saudi Arabia

Reducing emissions may occur in any phase of oil and gas development. The GTC offers a set of innovative services that apply to transportation, production, monitoring and maintenance. Use of these techniques will reduce project emissions and thus prevent significant impacts.

Complete cathodic protection program; For the optimal maintenance of your pipeline infrastructure and in order to avoid corrosion, or even worse leakages, cathodic protection is indispensable. The Sniffers offers a complete control and optimisation program. We visualise and outline the critical points in your cathodic protection system.

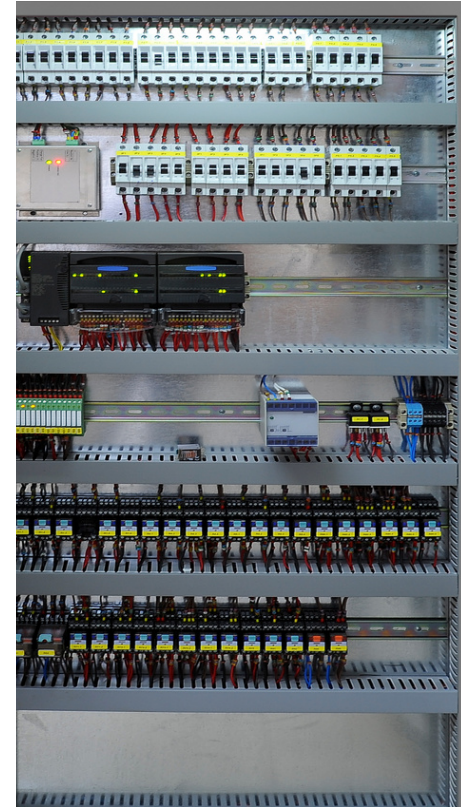

OUR SPECIALIZED SERVICES

- **Cathodic Protection (CP) Drilling, DS/TA Measurements, Anode, Coke Breeze Installation**
- **CP Commission using Qualified Personnel.**
- **Supply, Installation, Testing & Commissioning of Cathodic Protection Systems for pipeline, well casing , tanks etc**
Supply, Installation, Testing & Commissioning of Cathodic Protection Systems for pipeline, well casing tanks.
- **Site Survey, Monitoring and maintenance survey, drilling of bore hole, Drill Stem resistance measurement, Field work / Ground Bed & Anode Installation, Casing, Excavation, Back filling, etc.**
- **Solar Power Cathodic Protection for Gas Pipelines and Oil Industry**

INSTRUMENTATION

Looking for high quality electrical measuring instruments complying with international standards and an organization with world class customer service? Green Top Contracting Co. is exactly what you have in mind. An established brand name for over 46 years; Green Top has an unrivaled pedigree in the industry; our dedicated research and development facility ensures that the latest technology is utilized in our digital products whilst our traditional analog range continues to perform through the test of time.

Undertaken evaluation of new plant Emergency Shutdown System (ESD) and upgrading, using microcomputer-based Programmable Logic Controllers (PLC). Designed installation details of process analyzers, such as Gas Chromatographs, environmental process monitors, on-line process fluid property analyzers, metering systems for gas & liquid, gas detection and pipeline leak detection systems (LDS). Designed protective instrument devices for rotating machineries including vibration, temperature, and speed monitoring from field to control room

The instrumentation group provides procurement support development by preparing individual data sheets and specifications for each state-of-the-art device and sub-system in the control system. This design function requires coordination and selection of manufacturers and vendors who assist at the pre-procurement stage to supply data and expertise used in selecting the most appropriate device to the task.

OUR SPECIALIZED SERVICES

- **Analog Panel Meters**
- **Analog Industrial Meters**
- **Multifunction Meters**
- **Electrical Transducers**
- **Digital Multimeters**
- **Insulation Testers**
- **Analog Switch Board Meters**
- **Current Transformers**
- **Digital Panel Meters**
- **Single Conditioners**
- **Clamp Meters**
- **Temperature Controllers**

TELECOMMUNICATION

Our communication design systems are always based on client's standards and specifications backed-up by our own extensive experience. Recent design technology includes Intrusion Detection and Assessment Systems (IDAS), which detect, assess, trace and video record potential intrusion for various facilities/plants.

Also, Long Range Detection and Assessment System (LRDAS) which, detect, tract and report movement of vehicles and personnel anywhere within 10-km radius

undertaken design of telecommunication systems VSAT, Microwave, Optical Voice & Data Systems, comprising of modems & routers, copper and Fiber Optic Cables (FOC). Designed CCTV, CATV, telephony for buildings and industrial facilities

Performed design of communication links from pipeline monitoring & control equipment through RTU & modems (FOC or via VSAT) providing data acquisition & control to OSPAS. Designed industrial security systems such as IDAS, LRDAS and HCIS compliant industrial security systems, i.e. security fencing, gatehouses, etc.

Our engineers possess years of high-quality experience in the communication field. We can also provide construction support / management and client training services.

OUR SPECIALIZED SERVICES

- **Process Control System**
- **Corporate Connectivity Solution**
- **Telepresence**
- **Unified Communication**
- **Unified Network Infrastructure**
- **LAN and Switching Solution**
- **WAN and Routing Solutions**
- **Network Audit Services**
- **Internet Connectivity Solutions**
- **Integrated Physical Security Systems**
- **Plant Communication System**
- **IP Network System**

INFORMATION TECHNOLOGY

BMS & LOW VOLTAGE

BMS Centralized technical management systems, control set points for air conditioning, networks analyzers for energy control, engine performance, automatic switching transformers and generators, detection of water and gas leaks, the performance of electrical circuits, etc., including hardware, software, custom programming, actuators, electronic substations, computers, bus, and multicore wiring, probes, etc., Historical alarm generation and management, changing setpoint and scheduling and programming.

Low Voltage installations are strategically important and GTC has the technical expertise for installations with quality requirements and according to the relevant standards demand. Combine the experience and knowledge of GTC's technical staff with the abundant resources are the keys for this project accomplishment.

OUR SPECIALIZED SERVICES

- **Data Communication**
- **Wireless Solution**
- **Public Address**
- **RFID**
- **CCTV/ Fire Alaram**
- **Access Control**
- **Master Clock System**
- **Data Centre Solution**
- **Fibre Optic Solution**
- **Switching/ Routing**
- **Server Solution**
- **Bird Repeller**
- **Data Environment Control System**

Green Top Contracting Co. Ltd.(GTC) is an Engineering, Procurement &Construction (EPC) company, involved in major construction projects since 1977. GTC offers Mechanical Works which include Plumbing, Sewage, and Drainage work.GTC offer reliable, efficient and top-quality drainage, plumbing and sewage systemsfor all types of industrial or infrastructure systems.

GTC has a proven and professional track record in the design of numerous installations in Oil & Gas, Petrochemical Plants, Desalination Plants, Steam and Power Generation Plants, Industrial Plants and Buildings. Such design work is in support of plants currently in operation that require upgrade or specific modifications.

Providing specific technical scope for the procurement of specialized process equipment such as: receiver\launchers, knockout drums, filters, pressure vessels, fired heaters, heat exchangers, coolers, pumps and compressors, turbines, and other specialized rotating equipment. They also provide the technical support data for interface loads between equipment and supporting structures.

Provide piping design for potable hot & cold water, waste water, raw water storage, air distribution piping for pneumatic tools, and other mechanical service products such as oil & greases.

OUR SPECIALIZED SERVICES

- **Platforms with Gratings & Plates**
- **HVAC System Ducting & Units Installations**
- **Fire Protection System**
- **Pumps & Generators**
- **Outdoor Gas Installations**
- **Compressed Air Installations:**
- **Tubing, Valves and Gates**
- **Water Pumps**
- **Variable Flow Boxes**

GREEN TOP CONTRACTING CO., a piping construction company, has been providing industrial piping services with best-in-class experience in all aspects of the industry. Throughout our long history, GREEN TOP has established key relationships with major pipe manufacturers which can reduce costs for the project owner. Whether the project requires slip-lining, large diameter pipe, or connecting complicated mechanical systems, we provide quality and timely results.

Over the past two decades, GTC's piping design specialists have been designing flowlines for Saudi Aramco which includes installation of the wellhead tree, well site piping, laterals and flanks leading to the GOSPs, water supply piping, water injection piping and water disposal piping. Additionally, GTC has provided detailed design of piping systems within the GOSPs and other facilities.

In relation to design plant infrastructures, GTC has also furnished piping for site development, compressed air and other gas systems, firewater, fire protection systems, plumbing, sewer and chilled water system. An integral part of the piping team also includes civil and structural engineers who are involved in the design of pipe supports and structures.

OUR SPECIALIZED SERVICES

- **Process Piping**
- **Pil and Gas Plant**
- **Refinery**
- **Fertilizer**
- **Procurement**
- **Erection**
- **Utility Piping**
- **Petrochemical**
- **Power Plant**
- **Water Treatment**
- **Installation**
- **Planning**

PIPELINE

Green Top Contracting Co. is a leading Industrial General construction Contractor operating across Middle East. We cater our expertise in Oil & Gas, Petrochemical sectors, Ferrous and Non Ferrous industries , Buildings (Industrial, commercial and High Rise), O&M and comprehensive construction Management services through our operations spanning across Saudi Arabia.

Prepared design and construction packages for oil and gas pipelines, including wellhead piping, flowlines, trunk lines and cross-country pipelines in all classifications, underground, surface pipelines on sleepers or on pipe supports and pipe racks for crude oil, gas, water and chemical liquid conveyance and transportation.

Experience included, but not limited to, in-plant pipe engineering and designs for refinery, gas and oil separation plants (GOSPS), crude stabilizers, utilities and power piping. Conducted flexibility & stress analysis of various piping systems, steam lines, crude oils, gas lines, NGL, and high-pressure water lines using CAESAR II program, both as standalone project and part of the whole project.

Conducted upgrading of oily water and sewer s ystem, design calculations, hot tap packages and reviews of existing piping/pipeline network.

OUR SPECIALIZED SERVICES

- Flow Line
- Trunk Line
- Oil and Gas Header
- Scraper Trap
- Well Head Piping
- Fabrication
- Installation
- Testing
- Commisioning
- Procurement
- Material supply
- Gas PWR WS

OPERATIONS & MAINTENANCE (O&M)

GREENTOP
Contracting Co. Ltd.,

Green Top Contracting Co. provide preventive maintenance services by conducting periodic inspections, parts replacement and equipment cleaning. Our preventive maintenance programs anticipates and prevents equipment failures. Since 1977, we have provided preventative maintenance services to various clients such as: Aramco, Sabic, SEC, SWCC, ministries and corporate clients.

Our operational service processes are executed according to our own internal procedures, quality standards and service concepts and in line with the respective OEM's standard operating procedures. We implement continuous improvement to ensure the highest level of customer satisfaction.

OPERATIONS MAINTENANCE (O&M)

OUR SPECIALIZED SERVICES

- **Supervisor**
- **LMV Driver**
- **AC Technician**
- **Air Conditioning**
- **Electrician**
- **Split Air Conditioner**
- **Machinery**
- **Chilled Water AC System**
- **Plumber**
- **Cleaning Materials**
- **Male/ Female Janitor**

PEST CONTROL & CLEANING SERVICES

GREENTOP
Contracting Co. Ltd.,

Green Top Pest Control is a leading Pest Control & Cleaning services establishment fully licensed and approved by the Dammam Municipality. With trained technicians and experienced professionals, we are licensed by the designated authority to provide general pest control, real estate inspections, anti-termite treatment and pre-treatment of construction sites.

We are on a mission to help every single individual say "Good By Pests" and live a pest-free life. With our effective pest management services at reasonable prices and passion to improve the living and working environment, Green Top is the best choice for all your pest control needs.

PEST CONTROL

OUR SPECIALIZED PEST CONTROL SERVICES

- **Gel Treatment for Cockroaches**
- **Ants & Bed Bugs Control**
- **Fumigation & Fogging**
- **Rat & Rodent Control**
- **Bird & Pigeon Control**
- **Dust Mites & Spider Control**
- **Anti-Termite Control Treatment**

CLEANING SERVICES

GREENTOP
Contracting Co. Ltd.,

Since 1977 our dedicated team has been delivering exceptional cleanings to homes throughout the Saudi Arabia. We spend countless hours every year in Commercial building, Industrial building, Restaurants, Hotels, Hospitals, Offices, All business sectors, House, Villas, Warehouse & Logistics just like yours.

This experience has prepared our company for spaces of every kind and allowed us to develop advanced techniques and processes that will deliver unrivaled results. We proudly back our detailed cleaning services with a worry-free guarantee. Simply put, if you aren't entirely happy, let us know within 24-hours and we'll be sure to make it right.

OUR SPECIALIZED CLEANING SERVICES

- **General Cleaning**
- **Deep Cleaning**
- **Facade Cleaning**
- **Swimming Pool Cleaning**
- **Water Tank Cleaning**
- **Spring Cleaning**
- **Vaccum, Edge and Groom Carpentry**

GREEN TOP
Contracting Co. Ltd.,

1977

Registered with the
Ministry of Commerce,
Kingdom of Saudi Arabia

1988

GTC achieved the Saudi
Consolidated Electrical
Company registration
for its electrical division.

1998

GTC achieved the
Saudi ARAMCO
registration for its
group of companies.

2008

Providing the best civil
electro-mechanical-IT
works and
maintenance services
all over in Saudi
Arabia

2020

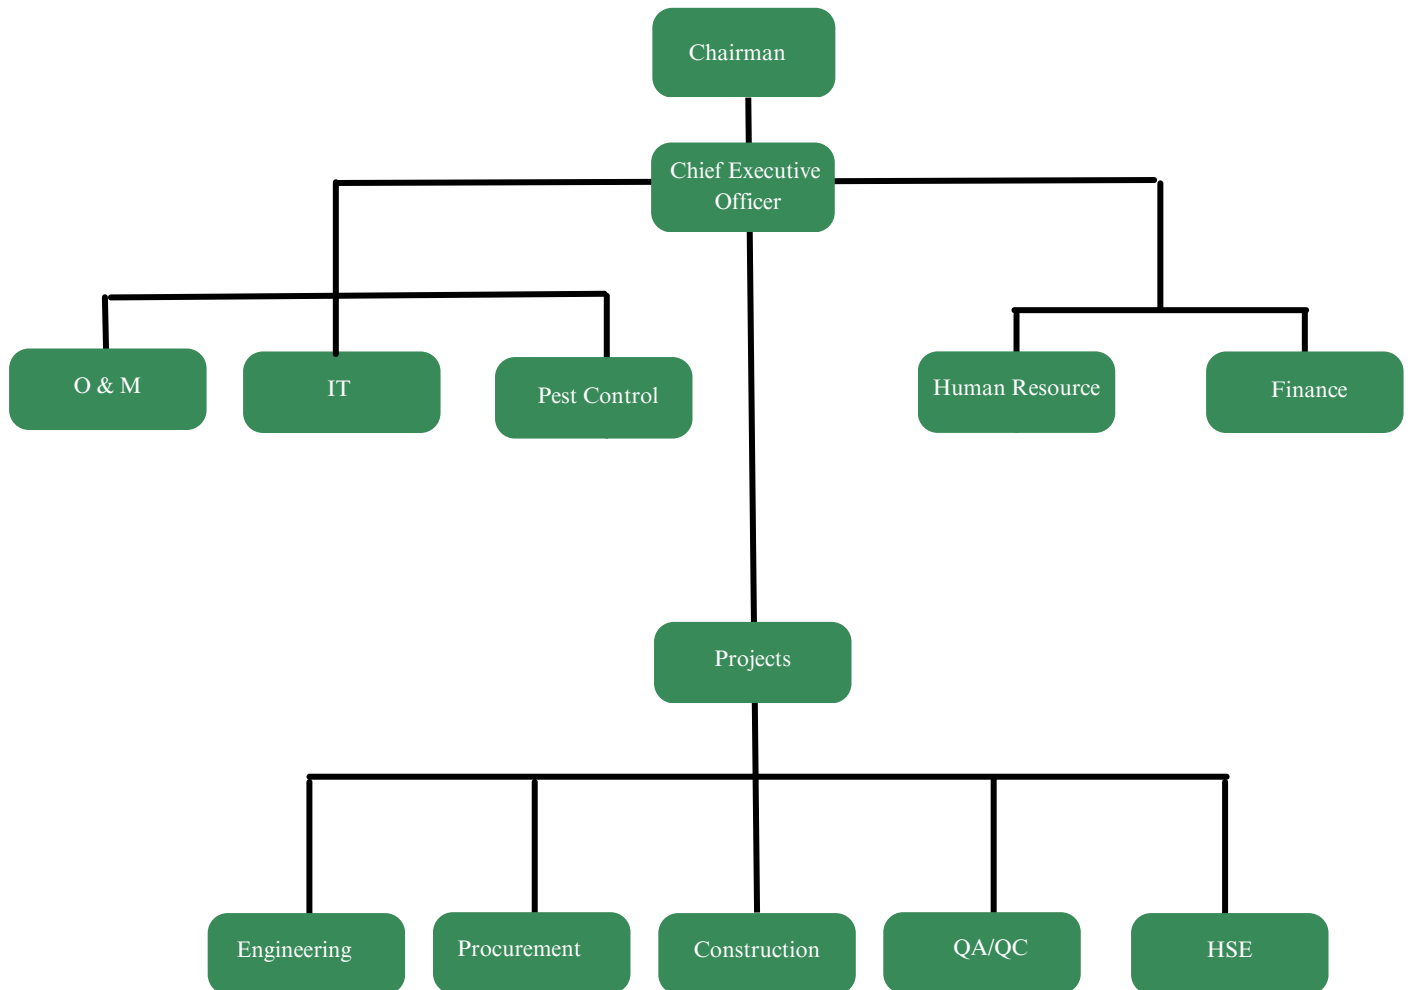

GTC became a
Saudization compliant
company. Saudization is
officially known as
Saudi nationalization
scheme

2023

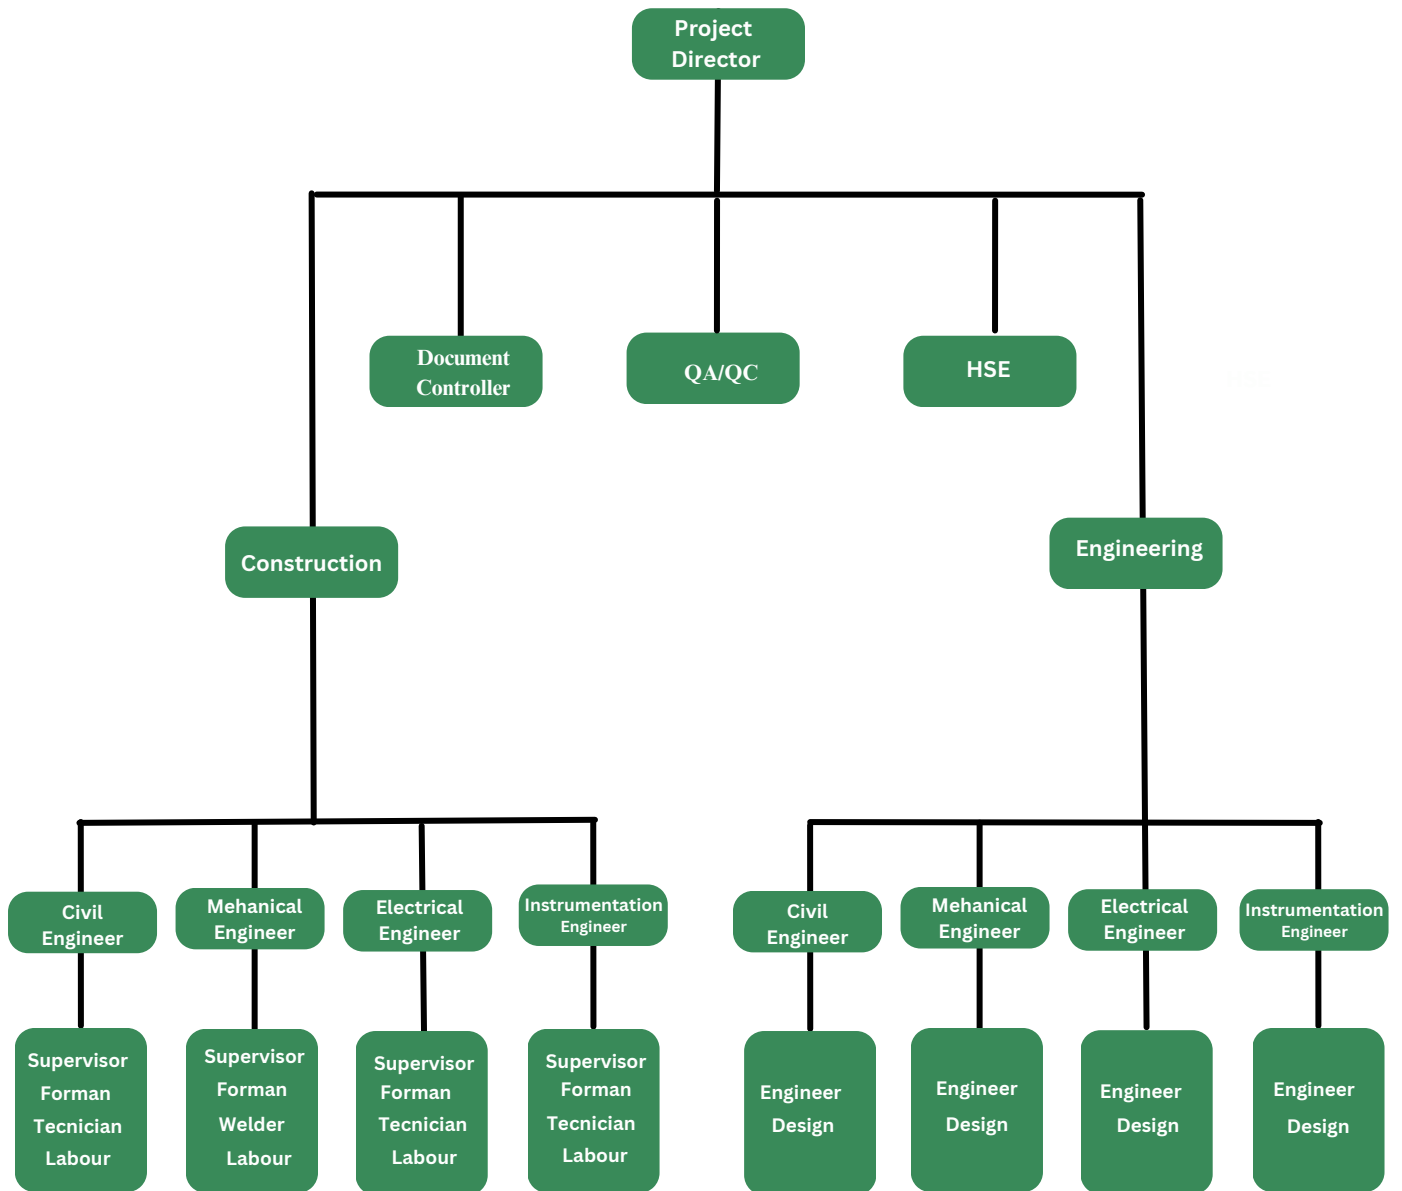

Received Awards and
Named Most Ethical
Company For its
Commitment

COMPANY HISTORY

Head Office Organization Chart

PROJECT ORGANIZATION CHART

Green Top Health & Safety

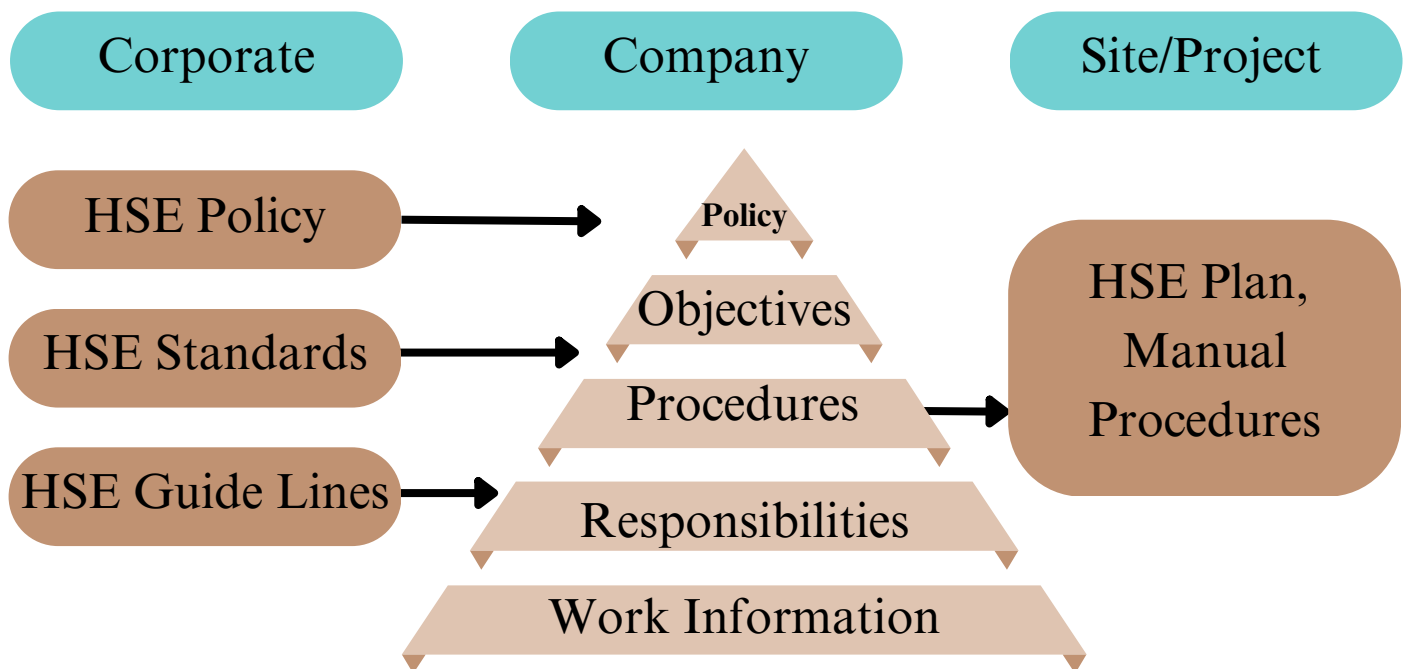

Green Top Contracting Co. primary concern is the safety of its employees and every possible effort to mitigate the potential of risk seems less when one considers the changing scenarios that evolve on a daily basis in a business like ours. But we at Green Top challenge every hazard and endeavor to bring down the risk to a manageable level before our employees have to deal with it.

The implementation of our Occupational Health and Safety program is directed by the top level management, so as to ensure that all aspects under this domain are included in the program and managed as well as implemented to keep all personnel safe.

Our Safety programs include Hazard Identification, Risk Assessment, Training & Communication including the awareness of statutory and regulatory requirements, Documents & Records Control for effective analysis and development of safe work plans. These also include Identification of Emergency Situations and Defining of Response Plan, OH&S Performance Monitoring, Accident/Incident Investigation, Corrective & Preventive Action, Internal Audits, Management Review, etc.

Green Top Health & Safety

At GTC, we have developed a culture that promotes an accident-free environment and provides the safest workplace possible for our employees, subcontractors, clients and others who enter or who near our construction sites. Our safety programs include partnering with the leaders in the insurance industry to develop the next generation of holistic personnel and properties protection. Through innovative training and education programs, we also equip our employees and subcontractors with the adequate resources they need to maintain high safety environment, reduce risk and improve loss control on every project that GTC manage.

Green Top Health & Safety

HSE CULTURE

GTC's HSE Cultures have supporting behaviors. The every behavior applies to all people regardless of their role with appreciation scheme that will ensure together we achieve the policy. The Key themes and involvements are listed below;

KEY THEMES	MANAGERS	SUPERVISORS	EVERYONE
Risk Management	Confront Risk	Perform Risk Awareness	Be Mindful
Policy & Standards	Implement	Ensure Compliance	Follow Rules
Communication	Communicate Openly	Encourage the Team	Speak up
Involvement	Stay Involved	Involve the Team	Get Involved

It is the policy of Green Top Contracting Co., here after called GTC, to provide a reliable and defect-free quality work and service that meets or exceeds client satisfaction as well as to comply with the requirements of ISO 9001: 2015 and to the project requirements in a timely and cost effective manner, while achieving excellence and safety for all personnel, the public and the environment. Quality is herein defined as conforming to the requirements and project specifications cited within this manual in all stages of construction.

It is the responsibility of personnel to ensure that the scope of work is executed in a manner consistent with the requirements of this manual and the Project Documentation (Drawings and Specifications). This assurance is achieved through implementation of the Quality Management System Plan.

The Quality Control Program (QCP) is established to ascertain that all construction activities are performed in complete conformance with the approved construction drawings, relevant project specifications and international standard requirements.

All GTC personnel will comply with and support the QCP and all personnel who are directly involved in this project shall be continuously kept informed of contract requirements as work progresses. The authority and responsibility for administering the QCP is assigned to the Quality Manager.

QUALITY POLICY

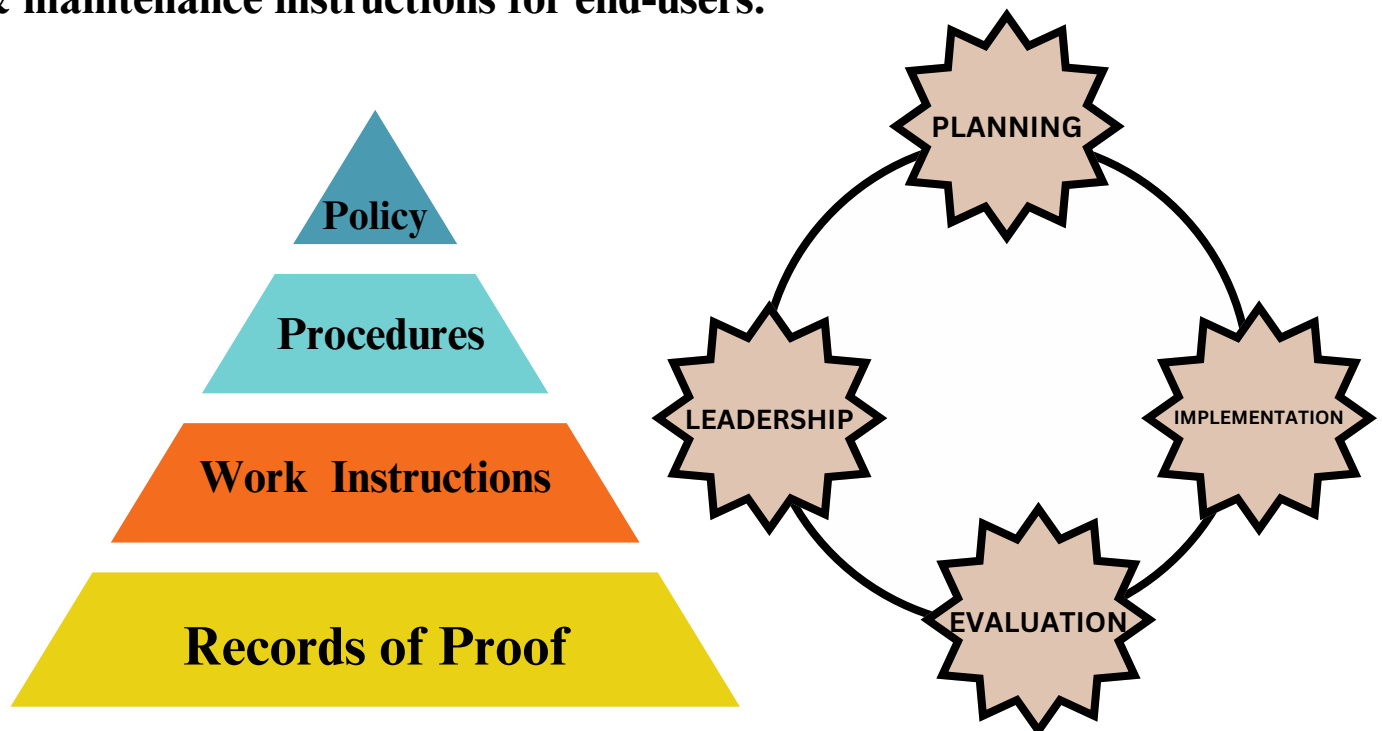

Green Top Contracting Co. Ltd. (GTC) is committed to providing high standard quality work, timely completion, providing a safe working environment and continually improving processes to enhance customer satisfaction by focusing on customer requirements

VALIDATING PROCESS

To maintain global standards and Client requirements, GTC periodically validates its Procedures, Equipment and other Facilities

SELF CONTROL PROTOCOLS

GTC uses self-control protocols (PPI's) implemented to ensure that our products are traceable and properly documents the projects delivered, by means of a comprehensive dossier along with the as-built documentation, certificates of materials, testing & commissioning protocols, and operating & maintenance instructions for end-users.

SAP GOES LIVE AT SAUDI ARAMCO

Saudi Aramco is currently in the process of converting to the "SAP" management system and many major components SAP will "go live" at the end of the year. SAP is a centralized client server management system that is being implemented to aid in streamlining the existing procurement and accounting system. The conversion to SAP will immediately impact all of our contractors in two ways:

1. As a result of this conversion, existing Saudi Aramco contracts will be charged from the current five digit contract numbers and will be assigned new ten (10) digit contract numbers, as follows:

Previous Contract Numbers: XXXXX00X
New Contract Numbers: 64000XXXXX

Each contract will automatically be assigned this new 10-digit SAP contract number at the end of 2001.
2. Existing contractor numbers will all change. Effective January 2, 2002, you will be assigned a new eight digit contractor number, hereinafter referred to as Vendor Number as follows:

Previous Contractor Number: 9585
New Vendor Number: 10007600

Effective in January 2002, all correspondence, invoices or other contractual documents should reflect this new SAP contract number and vendor number as well as your old contract and contractor numbers.

There will be other changes in the way Saudi Aramco does business, necessitated by our conversion to SAP and we will attempt to keep you informed about these changes before they take place. Let me assure you that these changes and future ones will not impact performance under existing contracts and long standing relationships with the Saudi Aramco contractor community.

If you have any questions, please contact Contractor Relations at 873-8520 or A.A. Al-Duljan, Supervisor, Contracting Systems Unit, at 874-7900 or by e-mail at duljaan@aramco.com.sa.

AL-KHOBAR 31952
SAUDI ARABIA

Dear Sir:

Thank you for your interest in performing work under contract to Saudi Aramco. Your file now contains all the necessary documents required to do business with Saudi Aramco.

Commercially registered contractors are welcome to submit quotations for any competitively bid projects which they are capable of undertaking and which fall within the scope of their Commercial Registration. Saudi Aramco advertises forthcoming projects by means of the bid notice boards located in the Contracting Office in Dhahran, as well as other Saudi Aramco offices in Riyadh, Jiddah, Ras Tanura, Abqir, Yanbu and Yanbu.

A new local contractor who has not yet done work for Saudi Aramco might also start by competing for short form contracts announced by organizations within Saudi Aramco such as Community Services, Operations Services, Exploration and Materials Supply. You are welcome to review these advertisements periodically to determine which projects may be of interest to you.

Please ensure that your company updates its information with Saudi Aramco regularly. Should you require information concerning your file with Saudi Aramco, please contact the Contractor Relations Group, Room 1861, Admin. Bldg., Dhahran, telephone 873-6495 or 873-3723; fax no. 873-9494.

Your interest in doing work for Saudi Aramco is appreciated.

Sincerely yours,

S. M. AL-DOSSARY, Manager

C.R No.130256-1

Board Resolution for Opening & Operating of the Account

Dated: 30 / 10 / 2019

Kuwait Finance House (Bahrain) B.S.C.

Dear Sirs,

We the undersigned voluntarily and irrevocably hereby certify and confirm that the following is a true copy of a resolution duly passed by the board of directors of this Company in accordance and in compliance with the Commercial Companies Law and the Memorandum and Articles of Association of the Company, at a meeting duly held on the 30 / 10 / 2019.

Resolved

1. That a current account to be operated with your Bank, and the following official of the Company:

No.	Name	CPR	Authorization	Signature
1.	Mr. Majed Nasser Al Yemni	ID. No. 1010631925	Singly	
2.	Mr. Rajendran Nesamani	700758690	Singly	

are authorized sign Singly on behalf of the Company and the Bank is to act on any instructions so given by the above named designated officers relating to opening , operating of the account , other accounts and transactions of the Company. The above- designated officers are empowered to:

- 1.1 Draw cheques, accept bills of exchange and make promissory notes on behalf of the Company authorizing the bank to debit the Company's account or other accounts with the amount of all such cheques, bills of exchange and promissory notes whether such account or other accounts are for the time being in credit or overdrawn.
- 1.2 Give instructions of any nature involving a debit of the Company's account or other instructions, and generally do all acts in matters relating or incidental to the operation of the Company's account or other accounts with the Bank.
- 1.3 Purchase, exchange, sell or otherwise deal in or with any stock, bonds or other securities.

2. That the Bank be furnished with the name of the authorized Signatories of the Company and the limit of their authorities whether such signatories are directors or officers of the Company and with specimens of their signatures and that the Bank be notified immediately in writing signed by an authorized signatory of the Company of any changes which may from time to time to take place in these details or changes in the Memorandum and Articles of Association, or any other documents of incorporation. It shall be our responsibility to ensure that such notice is delivered to the designated person in the Bank who shall acknowledge receipt of such instructions by signing and returning a copy of such notice to the Company, and that until receipt of such notice as aforesaid, the Bank will continue to treat the last instructions received in connection therewith as correct. The Bank shall be given reasonable time to communicate such changes to the appropriate operating departments of the Bank, its officers, branches and correspondents as it may deem to be concerned or affected thereby.
